## SILENCE IS PLATINUM

### FEATURES

**In-House Platform Design :** This is Cooler Master's first in-house designed PSU platform, built for high-end performance with reduced temperature requirements.

**80 PLUS Platinum Certified :** This certification guarantees a minimum typical efficiency of 92% under normal operating conditions.

**Quiet ARGB 135mm silent Fan :** The fluid dynamic fan bearing creates less friction, delivering quiet cooling performance.

**Information Display Panel :** Built-in ARGB display panel shows temperature, fan speed, and power consumption.

**Full-Modular Flat Cabling with In-unit Capacitor :** Reduces ripple noise, increase airflow, and improve overall efficiency and thermal performance.

**10-Year Warranty :** 10-year warranty for core operating products, 3-year warranty for ARGB LED. This unit comes with a standard limited manufacturing warranty from the date of purchase.

The XG Plus Platinum Cooler Master's first in-house designed platform. It was created to provide 80 PLUS Platinum certified efficiency and high-end performance with reduced temperature requirements. This unit offers full-modular cabling, a 135mm silent fan, and 10 years warranty. In addition, 100% Japanese capacitors have been used in both the platform and cables for increased efficiency and reduced ripple noise, ensuring a more stable output for better, more consistent performance. Monitor performance with the built-in Information Display Panel and manage these features and ARGB lighting with Cooler Master's free MasterPlus+ software.

## FEATURES

Compatible with CM In-house MasterPlus+, enhance the enthusiastic visual experience by customizing different color of ARGB & Side Panel with different modes.

This certification guarantees a minimum typical efficiency of 92% under normal operating conditions.

The Silent Fan Bearing creates less friction, allows fan to run at low RPM operation while delivering quiet cooling performance.

10-year warranty for core operating products, 3-year warranty for ARGB LED. This unit comes with a standard limited manufacturing warranty from the date of purchase.

Fully customizable, high efficiency cables reduce clutter, increase airflow, and improve overall efficiency and thermal performance.
