CP-GPC-T24PL2-S

2.4MP Full HD IR Guard+ Bullet Camera - 20 Mtr.

Functions

IR LED

Numerous crystal IR LEDs provide detailed images even in very low light conditions. These LEDs adjust the infrared intensity for distinct images in dark environments for up to 20mtrs.

UNI+ technology

CP PLUS Analog HD cameras offer compatibility across all the available technologies - CVBS, TVI, HDCVI, AHD and HDx, making upgrading simple and hassle-free.

Power protection

With a voltage tolerance range of ± 10 , these cameras are suitable even in fluctuating power conditions.

True Day/Night (ICR)

When the scene is too dark, the image is captured by illuminating an infrared light through the camera onto the scene that greatly helps with making the scene visible for the lens. It delivers color images during the day and automatically switches to the monochrome feature as the scene darkens.

Plug & Play

CP PLUS Guard+ cameras are simple to configure and install.
