Meshify 2 Compact

A classic evolved.

Meshify 2 Compact is a high-performing case with a bold, stealth-inspired aesthetic. Its striking exterior features bolt-free, flush tempered glass, a fully removable top panel granting excellent interior access, and a front USB 3.1 Type-C port. The front nylon filter can be removed for extra airflow, letting the mesh front deal with filtering. Intelligent space utilization enables the Meshify 2 Compact to boast the performance and capacity of larger cases despite its remarkably compact mid-tower size, and the filtered airflow design makes cooling a breeze.
