Adjust R1

The Adjust R1 gives you full manual control over your Fractal Design Prisma AL Series fans and other standard 5V addressable RGB devices. A single Adjust R1 provides easy software-free control, customization, and synchronized effects for several fans, LED strips, and other ARGB devices in daisy-chain or Y-cable configurations.

Intuitive controls let you set customize colors, configure brightness, and set color cycling modes with a variety of pulse and motion effects.

Key features

- Simple and intuitive controls
- Compatible with standard 5V ARGB LED fans, strips, and devices
- Integrated magnets for convenient placement in any steel case
- Preset color, color cycle, custom color, long rainbow, and short rainbow modes
- Eight color presets and five brightness levels
- Six pulse and motion effects
- Remembers settings when powered off
- Included Y-cable and adapters

Package contents

- Adjust R1 RGB Controller
- RGB Y-cable (female-to-female)
- 2 x Male-to-male adapters
